Personal Profile

Currently the solo developer for one of the leading car retailers in the UK, looking for a new a challenge that incorporates more than just PHP 5 & Code Igniter for the near future. Udemy is my current best friend, and learning about up and coming technologies such as Node.js and React has left me wanting more than the up keep of a single, yet large system.

Objective

Web Developer that just loves learning that wants to continue striving forward whilst achieving something.

Education

2014 – 2017: University of Northumbria at Newcastle - BSc (Second Class Honours) Computer Science – Web Design   and Development

2012 – 2014: Huddersfield New College - Software Development and Web Design (L3 Subsidiary Diploma) & English Language A2

2011 and Prior: Maths, Separate Science and English GCSEs and AS ICT

Technical Proficiency

- ❖ Use of multiple text editors (IntelliJ, Sublime, Atom)
- ❖ PHP Frameworks such as Laravel and CodeIgniter
- ❖ Relational database use (MySQL)
- ❖ JQuery, Javascript and some commercial experience of Node.js
- ❖ Ability in the use of CMS systems such as Drupal and Wordpress
- ❖ Knowledge in the usage of Kubernetes
- ❖ Use and creation of APIs in professional environment, (RESTful etc)
- ❖ Knowledge of building both the back and front end of current systems
- ❖ Can work on any of the relevant OS platforms

Work Experience

2015 – 2018: Some freelance, used to learn things missed from the University Curriculum (Bootstrap etc)

2018 – Current Date: PHP Developer at The Car People (Sytner Used Car Supermarket Division)
